

#### PP Camlock Coupling Type F

These are related to the PP Camlock Coupling Type F XunChi® news, in which you can learn about the updated information in PP Camlock Coupling Type F, to help you better understand and expand PP Camlock Coupling Type F market. Because the market for PP Camlock Coupling Type F is evolving and changing, so we recommend that you collect our website, and we will show you the latest news on a regular basis.

## Product Description

Male Adapter With Female Thread

Product Name: PP Camlock Coupling Type F XunChi®

Material: Polypropylene

Sizes: 1/2"-4"

MOQ: 50 PCS

Customizable contents: sizes, logo

Certificates: CE, ISO9001:2015

Competitive price

To learn more and get a quote, please leave your requirements on the form below.

#### Description:

Body materials: Polypropylene

Handle: stainless steel

Gaskets: Buna-N (NBR), EPDM

The thread of camlock fittings are BSP, BSPT, NPT

SIZE: 1/2" to 4"

Pressure :50-100 Psi (depending on size and temperature)

Operating temperature :-30-70°C (160°F)

When the temperature rises, the working pressure drops

Manufacture method: Injection molding

The use and connection way of cam and groove couplings: Type A camlock can usually be used with type D, type C, type B, type DC (Dust Cap) of the same size. To make a connection, simply slide the camlock adapter into the camlock coupling and with normal hand pressure, press the cam levers down.

#### Industry applications:

Industries: chemical, paint, agriculture, municipal, sewage

Applications: chemicals, solvents, varnishes, inks, fertilizers, wastewater
